Profile

Hello, I'm Hussien Alaa, a dedicated and skilled .NET web developer with a passion for building robust, scalable, and user-friendly web applications. With one year of experience in the field, I specialize in the .NET framework to create dynamic and high-performance solutions that meet the unique needs of businesses and users.

Education

09/2024 – present **Full stack .Net Web Developer**
Tanta, Egypt *Egypt Digital Pioneers Initiative*

10/2022 – present **Engineering**
tanta, Egypty *Faculty of Engineering,*

Skills

Front-End:

- Proficient in HTML and CSS for creating professional and visually appealing user interfaces.
- Certified in HTML and CSS, showcasing my expertise in crafting well-structured and responsive designs.
- Focused on delivering responsive designs and optimizing user experience for various devices and screen sizes.

soft skills

- quick learning ability
- project planning
- time management
- works in team
- Communication

Back-End:

- Skilled in programming with C# to develop robust and scalable systems.
- Certified in C#, highlighting my advanced knowledge and capabilities in this language.
- Experienced in working with SQL for efficient database management and ensuring high performance and data security.
- Proficient in using the .NET Core framework to build advanced and integrated web applications.
- I proficiently use LINQ to query, filter, and transform data in .NET applications, enhancing efficiency and reducing code complexity.

Projects

TechXpress E-commerce Platform with ASP.NET Core

I successfully designed and developed TechXpress, a scalable e-commerce platform for electronics sales, using ASP.NET Core MVC and modern design patterns to ensure maintainability, security, and performance.

Personal Portfolio Website using MVC Architecture

I developed a dynamic personal portfolio website using the **Model-View-Controller (MVC)** architectural pattern to ensure clean code organization, separation of concerns, and scalability. The project showcases my skills, projects, and contact information while adhering to modern web development practices.
